Electronic Information Engineering Undergraduate
+86 15131997955 | 3073028s@student.gla.ac.uk

Electronic Information Engineering undergraduate seeking research internships and early-career engineering opportunities. Hands-on experience with Arduino-based laboratory automation and collaborative web development, with interests in embedded systems and applied AI.

## Education

**University of Electronic Science and Technology of China** 2024 - Present

BEng in Electronic Information Engineering

Relevant study: programming, embedded systems, circuit analysis and electronic system design.

## Research Experience

**University of Glasgow** Jul - Aug 2026

Summer Research Programme | Biomedical Laboratory Automation

Supervisor: Huabing Yin

- Programmed an Arduino to control a peristaltic pump for automated liquid transfer in a biomedical laboratory workflow.
- Connected the control hardware and carried out preliminary hardware testing; gained familiarity with the laboratory's research directions and experimental workflows.
- Presented preliminary work in a final programme presentation; the full automation project remained incomplete at the end of the placement.

## Industry Experience

**UCloud** Dec 2025 - Feb 2026

Intern | Innovation Product Department

- Supported front-end and back-end development for web-based projects within a collaborative product team.
- Assisted with webpage design, implementation and testing, gaining practical experience in product development and team delivery.

## Technical Skills and Research Interests

**Programming and hardware:** C for basic embedded applications; Python fundamentals; Arduino programming, microcontroller experimentation and basic circuit knowledge.

**Research interests:** Applied AI, medical image analysis, computer vision, embodied intelligence and biomedical automation.

**Tools and languages:** Word, PowerPoint and Excel; native Mandarin Chinese; English for academic and working contexts, CET-4 and CET-6.

## Leadership and Activities

- Class Monitor, UESTC (2024 - Present): coordinate class affairs, facilitate communication between teachers and students, and support group organisation.
- Student Society Lead: led the college's UK-affiliated student society and organised events including Halloween and Christmas celebrations, evening parties and a ceilidh.
- Core Member, Youth Volunteer Association: helped plan and support student volunteer and community service activities.
- Blue Heart Social Practice Team (2025): contributed to activity planning and on-site organisation; the team received provincial-level outstanding social practice recognition.

## Honours

Leadership Scholarship | All-round Development Scholarship
